STEAMER PACIFIC NEWS.

We shall issue on TEESDAY morning, another number of the Enlarged Steamer Pacific News, containing the latest intelligence from every part of California, Ore gon, the Sandwich Islands, China, &c.; a full account of the Lynch Law Excitement in our own city, as well as the hanging of the man by the crowd at Sacramento; Mining Intelligence, Local Incidents; a Portrait of OLD BLOCK. author of the celebrated "Penknife Sketches," which have become so popular; an accurate Prices Current Arrival and Departure of Vessels, since the sailing of the last steamer; Marriages and Deaths in California, Oregon. Ac, &c. Price TWENTY-FIVE CENTS.

A Newspaper Bag will be kept open at our counter until 3 o'clock on the day of the sailing of the steamer.

"The West."

In looking over our exchange papers we observe that when mention is made of The West, as descriptive of a portion of the United States, reference is intended to Ohio, or Indiana, or Wisconsin, or at farthest to Minesota. Permit us to tell you, friends in the East, that such an application, is an egregious misnomer. The region you have in mind lies far, far to the Eastward. You may journey from this State toward that point of the compass, and it is not until you have crossed the great Sierra Nevada, and the broad chain of the Rocky Mountains, and deserts hundreds of miles wide, requiring months of weary travel, that you will reach even the confines of that country which you call the "Great West," and the "Far West." California is truly and critically The West. It is the outermost limit, the ultima thule of that region of the habitable globe. If we sail hence across the Pacific, the first land we make is the country of the Orientals. Who ever spoke of a Chinaman as a Western man ? Why he lives in the very longitude of the East Indies. A few evenings ago we listened to the singing of a beautiful ballad, commencing,

"Oh ! come to the West, love, oh ! come there with me. 'Tis a sweet land of versiure that springs from the sea."

We though of the loved ones whom we have left behind us, and as we entered, heart and soul, into the spirit of that invitation, to "come to the West," we felt that it meant California, and not a region three thousand miles nearer the rising sun.

The fact is, that the English language is acquiring broader and more comprehensive significations, as it spreads itself over the world. New words are constantly introduced. and changes are taking place in the manner of using old ones. For example, | take the word Home. We suppose that properly it has reference to a place near us. and about us—one to which we can every day could name numerous other instances of peretire from the cares and toils of business. But in California, although we have a multitude of houses, no one ever thinks of calling them homes. They are mere stopping places. When cards of invitation to an entertainment are sent out, they never recite that the host will be At Home, on such an evening. If a person says, "I am going home," you would never dream that he meant his is that "some enterprising Yankee brought Post and Wm. M. Burgoyne, be appointed relodging place: you would at once ask him-eamer !" But a change is ever now commencing. Already families are beginning to be re-united here, and every one who sincerely desires the prosperity of this new and beautiful State, prays fervently that our people, instead of abandoning us for purposes. their former abodes, may speedily welcome here those that are bound to them by the ties of blood and relationship, apart from which there can be no such thing as Home. MURDER AT NAPA .- We are indebted to Mr. C. COYL for the particulars of a murder which was committed at Napa, on Tuesday last. It appears that a suit had been tried before Justice SELLERS, between a man named McCAULEY and another individual, in which a decision was given against the former. Subsequently the Justice went into the store of HART & McGARY, where McCauley was, when the latter commenced abusing him. Mr. Sellers declined having any altercation, but suggested sending for a negro with whom McCauley had previously had a fight, as he would then be on a par with an equal. After a few minutes, McCauley walked towards the Justice, asking if he considered a negro his equal. and being answered in the affirmative, drew a dirk knife and stabbed Mr. Sellers in the left breast. The wounded man fell over the counter on which he was sitting, and staggered to the end, where he was met by McCauley, who again stabbed him twice in the back. The wounded man fell dead instantly. McCauley was immediately secured, and is now under a guard of citizens day and night awaiting trial. The populace could hardly be restrained from Lynching him. Justice Sellers was from Obio and McCauley from Missouri.

Another Murder in the Mountains. We learn from Mr. Fox, who is just down from the French Camp, near Murphy's Diggings, that a murder was committed near that place on the 20th ult. An Englishman named Charles James Joseph Richard Halfhead, (better known as Richard or Joseph Halfhead,) had gone from the French Camp to Mokelumne Hill, prospecting, and had selected a claim. On his return for his tools and camp utensils, it is supposed that he reached the spot where he was found dead,

on the evening of the 20th, and was shot while sitting down, or laying upon his blankets. A ball had entered through his hat in front, just above the middle of the forehead, passing clear through the brain, and coming out behind. He was discovered by a party of miners, and his body taken by his friends and buried near the Mexican camp, at French Gulch

He was formerly from Bedford, near London, where his friends reside, but had been engaged in Boston, as a machinist, for five or six years previous to coming to Culifornia, two years ago. His age was about thirtythree years. Robbery was undoubtedly the object of the murder, but the perpetrators did not probably get five dollars as their reward.

IMPORTANT MOVEMENT/IN CALIFORNIA .---A morning paper pretends to have private advices from California by the Ohio, announcing that it is the intention of some of the leading men of the State to organize an expedition of Americans, and proceed to that portion of Mexico known as Lower California, with the view of assisting the people in declaring their independence of the Central Government, and then seeking incorporation with this republic, in the way the American adventurors in Texas acted. [N Y. Paper.

IST A thousand things connected with California are heard of and promulgated in the Atlantic States, which are never known here, except through the medium of the press on the other side. It may be that such a movement as is suggested in the paragraph quoted, may exist in the brain of some agitator," who expects to reap a little glory if no money from it, but that such a thought s seriously entertained by any number of men, is all fancy.

The insufficiency of the pay of army officers and soldiers serving in Oregon and California, in consequence of the high prices caused by the gold discoveries in the latter State, was alluded to in the U.S. Senate, by Mr. Gwin, in offering a resolution to remedy the evil. He said .

The officers and their families had to perform the most menial services, owing to the high wages of labor. Gen. Riley could not employ a cook for his family, the wages charged being greater than his pay. The amiable and estimable lady of his Adjutant General (Maj. Canby) supported his family by copying papers for the Convention. At a dining party given by one of his aids, (Capt. Westcott,) at which I was present, his wife and her sister waited upon the guests. "CITY INTELLIGENCE."-The leader under this head, in the Alta of yesterday, informed the public that a "locomotive and about a dozen rail cars" were "on the wharf at the foot of Bush street," and that the probability it out here on speculation." This is the best recommendation that could have been bestowed upon Dr. R., and will greatly conduce to the popularity of Col. Fremont. All we regret is, that the meeting was so very insignificant in numbers.

The funeral of Mr. Charles H. Myers, who

Matheny's Creck .-- This creek is about fifty niles from Sacramento City, thirteen miles from Placerville, and eight miles from Mud Creek. It is a tributary of the Macosumnes, in El Dorado county. About two hundred miners are now engaged upon it : they have discovered cayote diggings, which yield from three to twenty dollars a day to a man.

THE NEW WORLD .--- This splendid river boat has been laid up, for the purpose of overhauling and decorating, putting down new carpets. &c. She will then probably run on the same days as the "Confidence," to test her speed with that fine river craft. The latter has proved herself some in a race and when she vanquishes the "World," she can take place as the boat of the Sacramento. We hope no boilers will be bursted, and nobody be blown up in the contest for superiority.

SUNDAY EXCURSIONS .- The beautiful little steamer "Santa Clara," went on a pleasure excursion to Benicia, vesterday forenoon taking a large load of passengers, who no doubt had a gay time.

The steamer "Goliah," also, went looking for a whale somewhere in the region of the Farralones; whether successful or not, is a case of quien sabe.

THE "JENNY LIND."-This fine little craft makes her daily trips between this city and Alviso, with the regularity of a clock. She is fast, commodious, and prompt to the minute. and her officers are deservedly popular with the traveling public. No more gentler manly officer walks the decks of our river craft, than Capt. HUNTINGTON. We do not wonder that the tide of travel sets river-wise. with such conveyances as the "Jenny Lind."

COUNTY TREASURER'S SALE .- By a notice in our advertising columns, it will be seen that C. E., BUCKINGHAM, Esq., County Treasurer, will sell at public auction, on the 14th inst., certain lands, upon which the State and County taxes remain unpaid.

His Excellency, Goy. JOHN McDougal, arrived in the city last evening, and took rooms at the Union Hotel. The State Treasurer, Maj. ROMAN, and a large number of the members of the Legislature, are also stopping at the same house.

FRIGHTENED BY A STOVE .-- Monday evenng, a clerk in a store on Battery street, near Pine, alarmed the neighborhood with his shouts for the police, and on Capt. MEREDITH repairing to the place, he was informed by the dirt from one to five hundred yards to the clerk that just as he was entering the store he saw a robber in it. The Captain. (pistol in hand, we suppose.) cautiously opened the door of the store, and looking in, | tre! could see nothing but a high stove, somewhat resembling a person in the dim light. and which the clerk admitted was what he took for the robber. It was, indeed, "very like a whale !"

FURIOUS RIDING-Saturday afternoon, A. J. McDuffie was arrested and taken to the station house by officer McDonald, charged with riding furiously through the street and running over a poor Italian, smashing into a thousand fragments a basket of fancy crockery he had on his arm. This is a case which should be punished to the fullest extent. Yesterday evening, King Little. J. McGennis and James Carlin, were also arrested by roof, and with pistol and bowie knife in hand, the second district police, for furious riding through the streets.

From Jamaica we have dates to Dec. 31. Cholera was gradually decreasing, after having made terrible ravages. From the imperfect statistics furnished by the Kingston papers, we have obtained the following list of deaths in several of the Districts :

The actual mortality in the island is probably double this amount.
